

SUMMARY

Curious and impact-driven full-stack developer with hands-on experience in React, Next.js, Node.js, and Fastify. Currently pursuing a B.Tech in Computer Science and Engineering, with a strong focus on building scalable web applications and exploring Generative AI, DevOps, and Web3. Known for rapid prototyping, modular architecture, and a product-first mindset. Seeking opportunities to contribute to high-growth engineering teams and build user-centric solutions.

EDUCATION

B.Tech in Computer Science and Engineering

Chandigarh Group of Colleges, Jhanjeri | GPA: 8.34
June 2023 – Present | Mohali, India

SKILLS

- FRONTEND -: Next.js, React.js, Tailwind CSS, Framer Motion, Anime.js
- BACKEND -: Node.js, Express.js, Fastify.js
- DATABASES -: MongoDB, PostgreSQL, NeonDB, SQL, NoSQL
- DevOps -: Docker, CI / CD
- Version Control -: GITHUB
- ORM and AUTH -: PRISMA ORM, Clerk, Auth0
- Other Skills -: Generative AI, Python, Fastapi

CERTIFICATIONS

SIH (SMART INDIA HACKATHON):

College Round Finalist CGC Jhanjeri, Mohali

PROFESSIONAL EXPERIENCE

Frontend Intern

Shubpy Solutions Pvt Ltd.

Remote | Mohali, India | May 2024 – Aug 2024

- Developed responsive UI components using React.js, Tailwind CSS, and GSAP.
- Integrated Framer Motion and Anime.js for smooth animations and transitions.
- Collaborated with designers to deliver pixel-perfect interfaces.

Full Stack Intern

Unified Mentor Pvt Ltd

India | Jan 2024 – Apr 2024

- Built and deployed full-stack applications including a Quiz App and Civic Tracker.
- Used Node.js, Express, and MongoDB for backend logic and data persistence.
- Implemented authentication, routing, and modular APIs.

PROJECTS

FirstTube – Video Streaming App

- Built with Next.js, Tailwind CSS, NeonDB, and Prisma ORM.
- Features include video playback, user profiles, and dynamic routing.
- <https://first-tube.vercel.app/>

Blog Application using BaaS (Appwrite)

- Created a full-stack blog platform with post creation, editing, and user auth.
- <https://github.com/Saaransh-Mehta/blog-app-appwrite>

AI IDE (Work in Progress)

- Developing an AI-powered coding assistant with prompt-driven flows.
- Focused on modular plugin architecture and Gen AI integration.
